## Ready for Take Off

Pearl Harbor Aviation Museum, in partnership with Hawaii Technology Academy (HTA), will host a one-day STEAM public program to excite and inspire youth. This event will take place on Saturday, February 22nd from 9:30AM-1:00PM. We are looking for volunteers to help support this event. Please let me know if you are available and interested in helping out!

## Decision Center Volunteers Needed

We need 5 volunteers to participate in The Decision Center with us on Thursday, January 23, at 1:30PM. The Decision Center is a live action, interactive experience that is part of the education program at the museum. Participants take on the role of a relief provider, local authority, or pilot in a modern fictional disaster relief scenario. Collaboration, communication, and decision making are key components of a successful mission. The event provides training for our education staff members, and an opportunity to share this unique resource with our museum ohana.

## Interested in Being Part of a PHAM Photoshoot?

### *Our Marketing Team Needs You!*

Pearl Harbor Aviation Museum is getting a brand new look to match its new name, and we need your help to make it happen. We will be holding several photo shoots here at the museum in the first quarter of the new year. We need families and individuals of all ages to volunteer to be our models. If you or your family is interested in participating, keep an eye out here: we'll share exact dates, times and other details as soon as the photo shoots are booked.

## Exciting Times Ahead

### *A Note from our Executive Director, Elissa Lines*

Aloha. Another busy quarter expected for our museum. Over the next few months, work will begin on the renovation and conversion of Bldg. 97 into our Aviation Learning Lab, a stunning resource for youth. Also, as we consider the end of the Above & Beyond display set for March, we are immediately focused on the installation of our Bob Hope exhibit into the Raytheon Pavilion. On a recent trip to Birmingham to view the exhibit, Alexis Stallings, our Assistant Curator and I had a chance to explore existing cases and new artifacts. Exciting times! As always, thank you for your support.
